$5,745 of cost and revenue to recover, and $5,770 of cash to free up

We joined three months of supplier bills, customer invoices and job timesheets (29 bills, 24 invoices, 110 timesheet entries across 24 jobs) and ran five checks. Your accounting software checks what's on each bill. These checks compare it with what actually happened on the job.

$5,745
Money at stake: $1,965 in bills that shouldn't be paid as they stand, and $3,780 of work not billed

$5,770
Cash tied up in an unapplied credit and an overdue invoice. Timing, not a loss.

8 confirmed
2 more were flagged and explained on review, so they're not counted.

What the checks found

Check	Findings	Amount	What to do
1. Subcontractor bills vs timesheets and quotes	2	$1,480	Hold unpaid bills; ask for corrected bills or credits
2. Hours worked but not invoiced	2	$3,180	Raise variation invoices
3. Possible duplicate bills	1	$485	Ask the supplier to void the duplicate
4. Invoices below the current rate card	1	$600	Fix the item code; bill the difference if the contract allows
5a. Supplier credits not applied	1	$1,420	Apply against the next bill
5b. Customer invoices more than 30 days overdue	1	$4,350	Follow up this week
Total confirmed	**8**	**$11,515**	**Includes $5,770 of timing**

Do this week

- **Hold** the unpaid subcontractor bill billed at 22 hours against 14 on the timesheet, and ask for a corrected bill.
- **Don't pay** the duplicate materials bill, and ask the supplier to void it.
- Raise variation invoices for the two jobs with hours worked but not billed.
- Request a credit for the bill charged above the agreed rate, apply the open supplier credit, and follow up the overdue invoice.

So it doesn't happen again

Before every pay run
Supplier bills are checked against timesheets, quotes and purchase orders. Anything over tolerance is held for a person.

On every draft invoice
Rates are checked against the current rate card before it is sent.

Every Friday
Jobs with hours logged but not invoiced are listed for the owner.

Weekly
Open supplier credits and overdue invoices are listed with a suggested follow-up.

Findings register (confirmed)

Record	Counterparty and what we found	Amount	Reviewed with the owner
B8809	Ridgeback HVAC Rate $145.00/h against $125.00/h agreed. Bill $2,610.00, supported $2,250.00 (already paid, ask for a credit).	$360	Hours match. Rate is above the $125/h in the purchase order. Bill already paid: request a credit for $360.
B8813	Quoll Electrical Billed 22 h, timesheet shows 14 h (quote cap 16 h). Bill $3,080.00, supported $1,960.00 (unpaid, can be held).	$1,120	Timesheet and the emailed quote (cap 16 h) agree. Bill is unpaid: hold and ask the supplier for a corrected bill.
J2211	Kestrel Retail Fitouts 42 h logged by staff, 30 h invoiced. 12 h at $165.00/h not billed.	$1,980	Owner confirms the extra 12 h was a client-requested variation. Raise a variation invoice.
J2214	Redgum Self Storage 28 h logged by staff, 20 h invoiced. 8 h at $150.00/h not billed.	$1,200	8 h of rework after the client changed the layout. Billable under the contract. Raise a variation invoice.
M8905A (matches M8905)	Gangway Trade Supplies Same supplier and amount, 1 day(s) apart, same base invoice number. Status: authorised.	$485	Same delivery docket number on both bills. Do not pay M8905A; ask the supplier to void it.
INV-3010	Ironbark Legal 30 h at $145.00/h; current rate card is $165.00/h.	$600	Client was moved to the new rate in July but this invoice used the old item code. Also 54 days overdue.
CN-104	Brolga Switchgear Credit note dated 10 Jul 2026 not yet applied to a bill or refunded.	$1,420	Credit for returned switchboard parts. Apply against the next Brolga Switchgear bill.
INV-3010	Ironbark Legal 54 days past due on 30 Sep 2026.	$4,350	Client was moved to the new rate in July but this invoice used the old item code. Also 54 days overdue.

Flagged, then explained

- M8901 (matches M8900), $318: Standing weekly order. Two deliveries received and signed for.
- M8904 (matches M8903), $1,120: Standing weekly order. Two deliveries received and signed for.

How the check was done

- Exports only: bills, invoices and credit notes from the accounting software, the timesheet export from the job app, quotes and the rate card. No logins.
- Five checks, run the same way every time. Every finding starts as "needs review" and is confirmed or explained with the owner before it's reported.
- What the checks can't see: work that was never logged, agreements that aren't in the quote, and money outside these records.

Next steps

Live cash & job profit model
from $5,000. 13-week cash and profit by job, updated weekly.

AI workforce setup
from $6,000. The controls above, run by agents with limits and a person approving.

Monthly review
from $750 a month. The decision log reviewed, and one page on what was caught.

The $1,500 fee for this check is credited in full if you go ahead with either build within 30 days.
